DARE TASKS

Ways To Hold Me

There are lots of ways to hold your toy for a variety of sensations. Here are just a few!

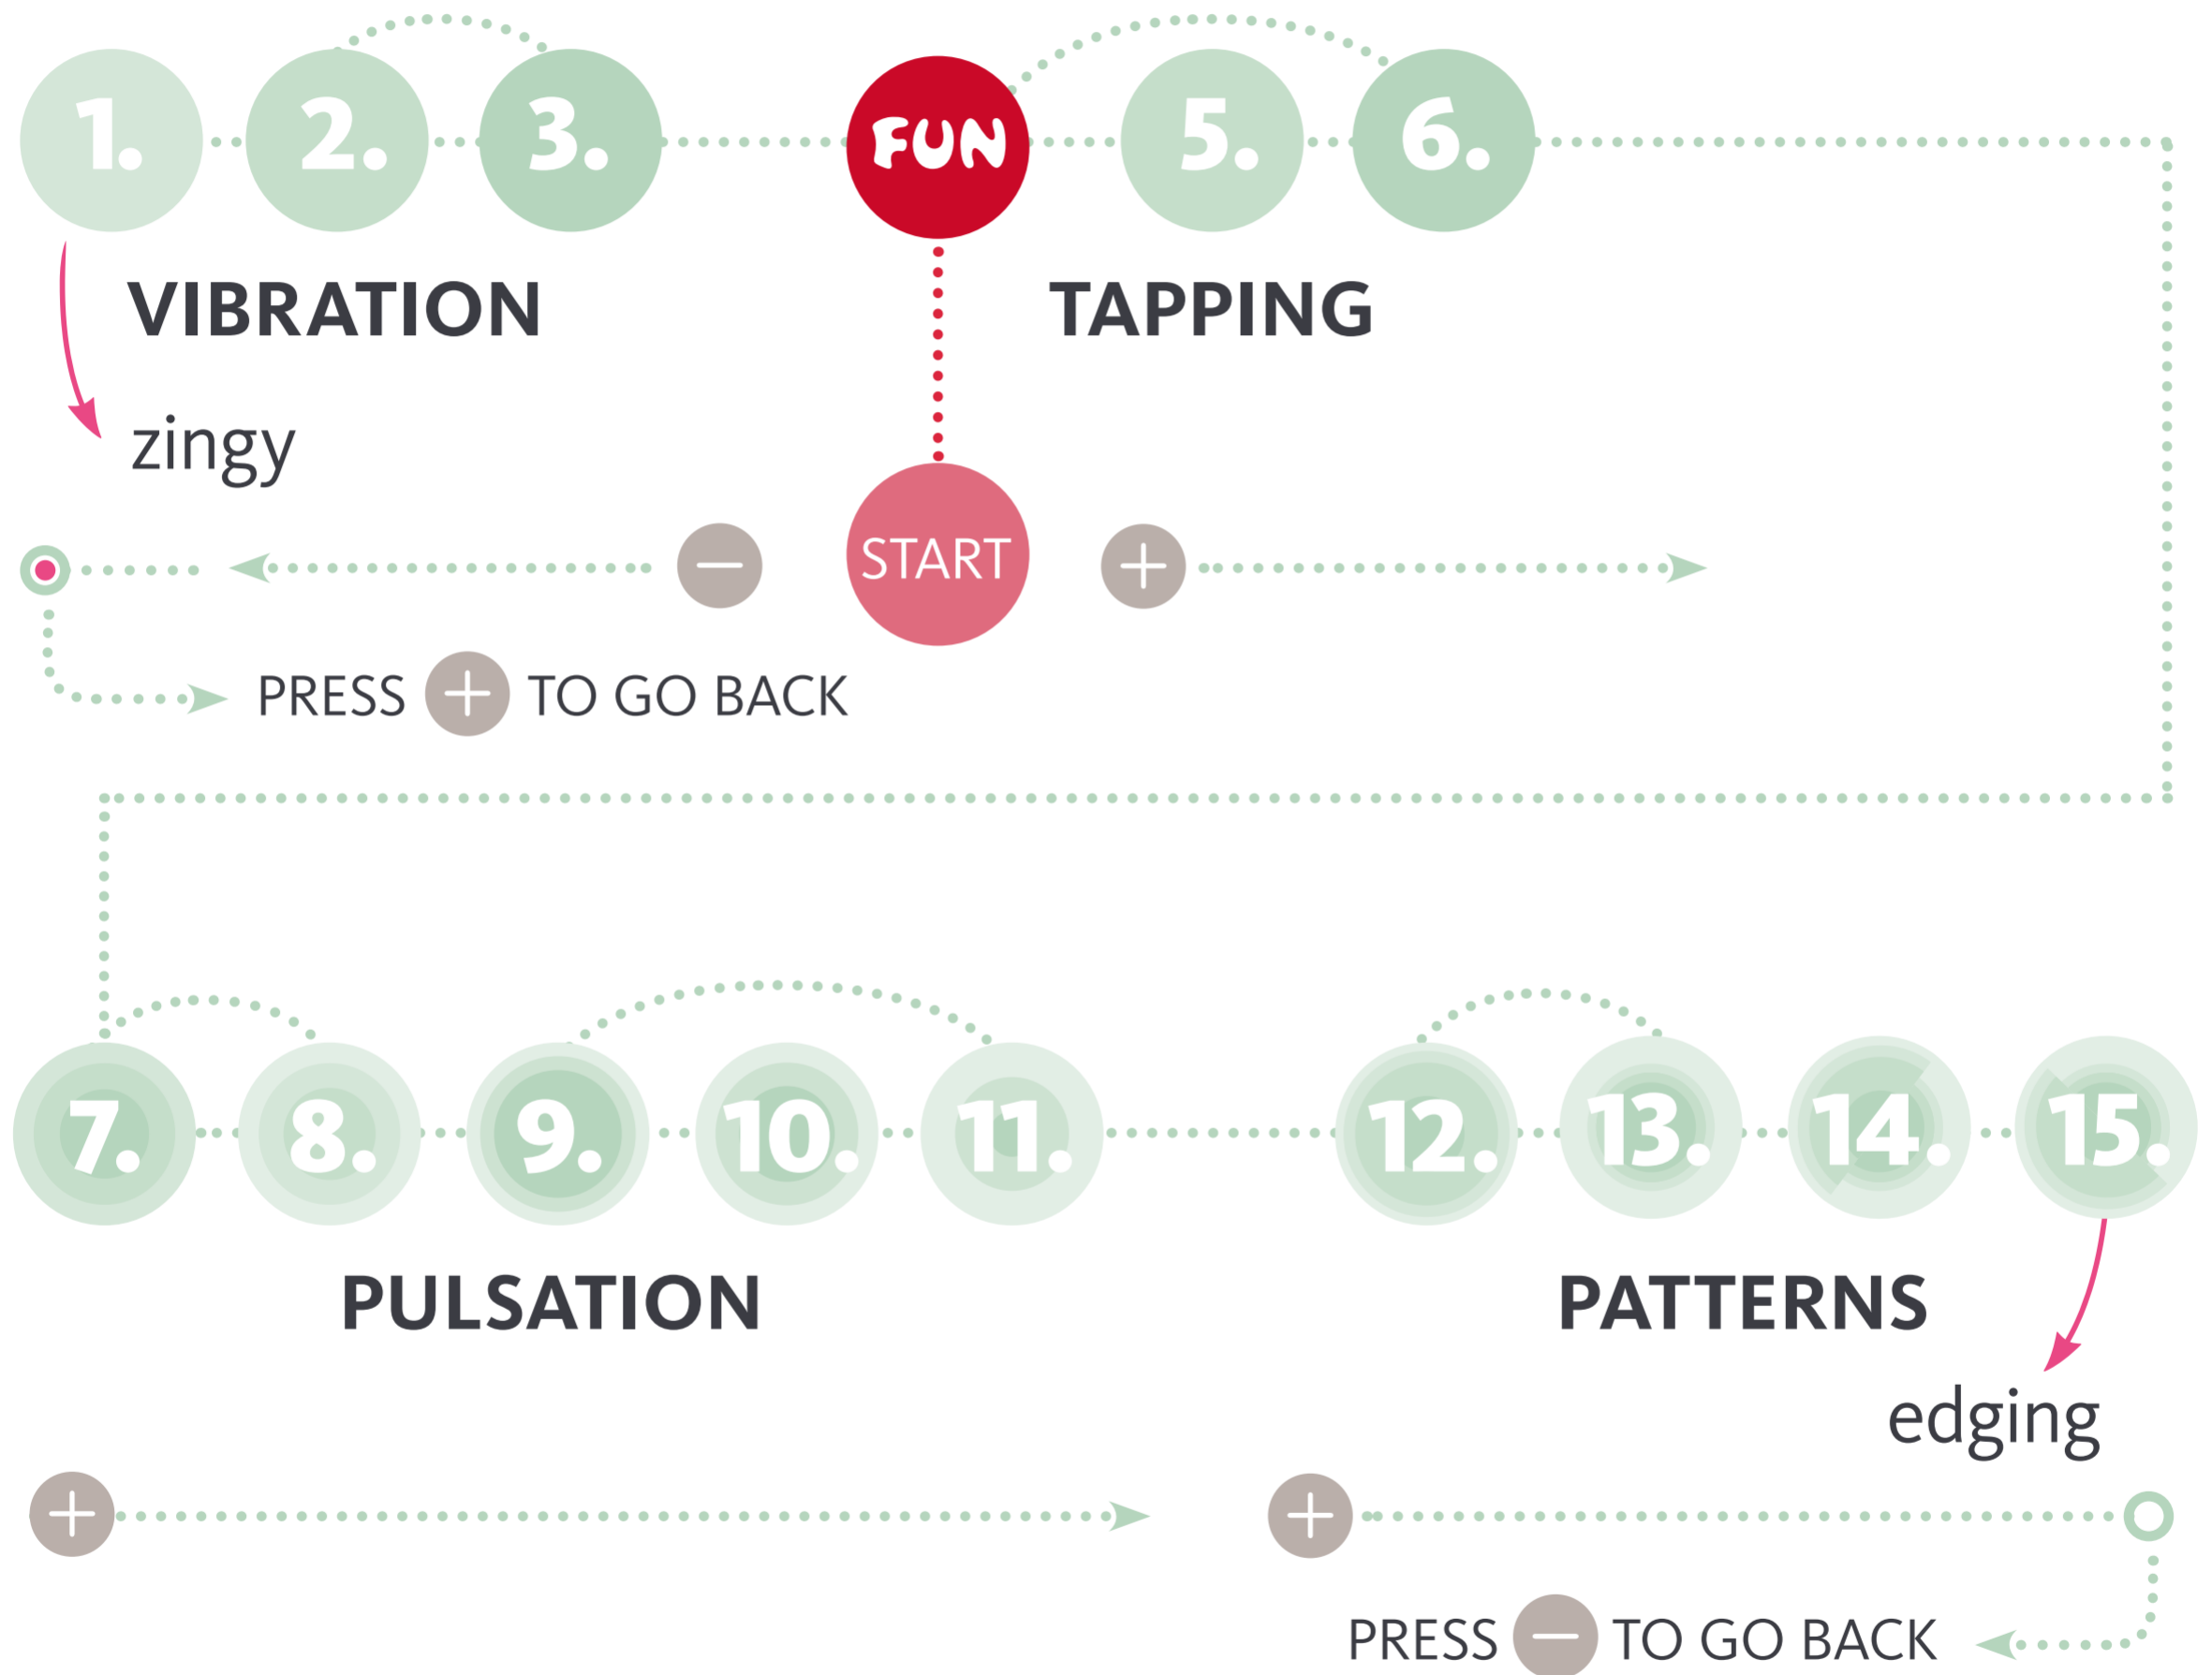

Try using **two fingers** to gently hold the toy in place, especially when you're using it internally on the pulsation settings.

Use a **loose grip** to give it room to move up and down. Try it on the tapping settings and when you're focusing vibration with the tip.

Holding it with your **thumb** in front gives you a little more control, making it easier to use the flat end for more surface coverage.

REMEMBER: consent is not only important but also sexy! Make sure you both agree to these flirts and dares or make up your own!
